

≡FREEDOM≡

*“You chose a path in life and followed it to success.
Now choose FREEDOM and follow your dreams.”*

≡FREEDOM≡

The Task

Create a vessel to carry the owners and their children around the world in total safety and comfort.

The Team

Renowned designers Sparkman & Stephens, the master builders and craftsmen of Picchotti SPA, Italy.

The Achievement

124 feet of excellence, two circumnavigations, documented performance and self-sufficiency.

Completely updated in 2004 with a stem-to-stern refit, ***Freedom*** is finished to the highest standards and equipped with the latest navigation and communications electronics. Vital systems – radar, GPS and SSB – are duplicated. Every safety feature is incorporated in her design, even baby netting to safeguard the youngest explorers.

Freedom is an emotion, a lightness of spirit, the realization of possibilities opening before you. Come aboard. This confident lady has crossed the oceans of the world many times. She invites you to follow the wind and your dreams.

Elegance beckons in the main saloon where the soft luster of mahogany, inset linen panels and luxurious fabrics speak of quiet comfort.

The Sony TV/Entertainment center and wet bar are discretely hidden in a custom pop-up cabinet, unobtrusive yet always at hand. Satellite TV keeps you in touch with world news and sports. An extensive library of DVDs has selections to suit all tastes.

Freedom is a realm of luxury and comfort, a private world to be savored with family and friends, a treasury of memories to share.

Two deck saloon tables swivel and adjust to cocktail height to suit the mood of the moment. Dining al fresco is as casual or elegant as you desire. Start the day with baked-on-board breakfast treats and finish with nightcaps under the stars.

A sanctuary apart, the master suite's king-size bed and generous scale befit a yacht built to circle the globe. The settee converts to a child's bed, offering peace of mind to parents cruising with young children.

The master suite's private bathroom with bathtub and large shower is fitted with heated towel racks, plush towels and luxury toiletries.

All your needs have been anticipated – a safe, satellite TV, settee, internet connection, Sat Com, house phone and intercom.

The starboard guest cabin features a generous double bed, vanity/desk and fold out pullman berth with baby netting. The en suite bath also serves as the day head with a second door opening to the hallway.

The two en suite port staterooms offer twin beds and generous storage.

All cabins have data ports, email capability, intercom, phone and individual A/C controls. The yacht is fully heated and air conditioned for comfort in all climates.

All bathrooms are fitted with heated towel racks and linens of the highest quality. Textured glass shower doors allow light while preserving privacy.

Aboard Freedom, comfort is in the details and meticulous planning is evident throughout.

Command central, the study is equipped with a Windows XP networked PC (one of three aboard) plus a printer/scanner/fax.

Full communication is possible in any port of call or on the high seas via Sat Com, internet and email.

An extensive reference library of travel and pilot books lets you customize your itinerary – or plan your next sailing adventure.

What would you like to do today? Lounge in the shade or bask in the sun? Morning exercises, watersports in the afternoon, perhaps a kayak race? So many choices are offered.

Six full sets of diving equipment and a dive compressor are available to certified divers. Game fishing tackle, two kayaks and a Laser sailing dinghy round out the recreation gear. And, with two tenders, 3.2 and 5.5 meters in length, there's no waiting to go ashore.

When the anchor goes down it's time for water sports. Rev up the Nautica's 115hp outboard and carve a wake on the high-performance Mono ski. Everyone can have a turn with adult and child-size water skis, a wake board and two doughnuts. Your crew is on hand to help, always with a watchful eye for safety.

Freedom's highly qualified crew of six comprises a captain, purser, chef, first mate, chief stewardess and engineer. Every member of the crew is a trained professional with the skills and experience needed to meet the needs of the most discerning guest. Hand chosen by the captain, this team works together seamlessly, creating a fun and light-hearted atmosphere on board.

*The sails are set.
Ahead lies the horizon – clear, without limits.
Freedom spreads her white wings
to catch the breeze. Your voyage begins.*

FREEDOM

LOA	124' (38m)
LWL	98' (30m)
Beam	26' (8m)
Draft	10' (Board Up), 19'4" (Board Down)
Displacement	327,674 LBS
Engine	Caterpillar 3406-TA 402BHP, Diesel
Generators	(2) Northern Lights 55kw (2004)
Fuel capacity	4,800 Gallons
Water capacity	2,350 Gallons
Watermaker	(2) HEM – 3,000 Gallons/Day
